JUN 05 2008

NO. 1762 P. 3

Serial No. 10/780,596

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

WHAT IS CLAIMED IS:

1. (Currently Amended) A medical device comprising:
an implantable structure;
a basecoat matrix, including a combination of rapamycin and cladribine, in therapeutic dosages, incorporated in a first polymeric material, the basecoat matrix being affixed to the surface of the implantable medical device; and
a topcoat, including a second polymeric material, affixed to the basecoat matrix for controlling the elution rate of the rapamycin and cladribine, wherein the second polymeric material is incompatible with the first polymeric material, thereby creating both a physical and chemical barrier to the elution of the rapamycin and cladribine.
2. (Original) The medical device according to claim 1, wherein the implantable structure comprises a stent.
3. (Original) The medical device according to claim 1, wherein the implantable structure comprises a stent-graft.
4. (Original) The medical device according to claim 1, wherein the implantable structure comprises an anastomosis device.
5. (Cancelled) The medical device according to claim 1, wherein the second polymeric material is incompatible with the first polymeric material, thereby creating both a physical and chemical barrier to the elution of the rapamycin and cladribine.

Serial No. 10/780,596

6. (Currently Amended) The medical device according to claim 51, wherein the first polymeric material comprises a fluoropolymer.

7. (Currently Amended) The medical device according to claim 51, wherein the second polymeric material comprises an acrylic.

8. (Cancelled) A medical device comprising:
an implantable structure; and
a combination of rapamycin and cladribine, in therapeutic dosages, releasably affixed to the implantable structure for the treatment of restenosis following vascular injury.

9. (Cancelled) The medical device according to claim 8, wherein the implantable structure comprises a stent.

10. (Cancelled) The medical device according to claim 8, wherein the implantable structure comprises a stent-graft.

11. (Cancelled) The medical device according to claim 8, wherein the implantable structure comprises an anastomosis device.

12. (Cancelled) The medical device according to claim 8, further comprising a polymeric coating, the combination of rapamycin and cladribine being incorporated into the polymeric coating.

13. (Cancelled) A method for treating restenosis comprising the local administration of a therapeutic dose of a combination of rapamycin and cladribine.

14. (Cancelled) A method for treating restenosis comprising the

Serial No. 10/780,596

administration of a therapeutic dose of a combination of rapamycin and cladribine.
